- Good analytical and logical skills, in conjunction with good communication and interpersonal capabilities.
- Lead & guide team of developers in implementation of application.

Technical Skill Set:

- Web Technologies: Web MVC Frameworks (Ext JS & Backbone.js), Yeoman(Yo, Grunt, Bower) , Object oriented javascript, HTML5 & CSS3, Node.js
- PHP: Core PHP, MVC Framework (Yii & Fatfree)
- IDE: Web Storm(Other JetBrains IDEs), Netbeans, Sublime Text
- Bug Tracking Tools: JIRA, Redmine
- Continuous Integration & Build Tools: Jenkins, Apache Ant, Shell script
- Database & Tools: MySQL, MySQL Workbench, Oracle Sql Developer
- Version Control Tools: Git, SVN, Github, Bitbucket, Visual SVN Server

Academic Profile:

- Bachelor In Computer Engineering (Grade-Distinction) (JUNE 2011 , Gujarat University)
- H.S.C. (Grade-Distinction, 79 %) (March 2007, GSHSEB)
- S.S.C. (Grade-Distinction, 87.86 %) (March 2005, GSHSEB)

Projects Details:

1. Hem.com

(May 2015 – Present)

Role: Front End Developer

Team Size: 50

Components/Technologies: Javascript , Ruby on rails

Project Description:

Hem.com is e-commerce website that focus on selling custom designed furniture & home goods in Europe & US region.

Roles and Responsibilities:

- Front End : Development & architecture design of custom furniture design tools that includes shelves, tables, chairs, pendant lamps & chat application. Implementing practices to improve website performance, reducing development efforts & QA.
- Product Development : Managed and lead product development from idea, design phase, implementation of front end to production and after production support.
- Team Lead: Guide team of 3 developers in implementation and review code.

2. In View – Citicorp Services Private Limited.

(Oct 2013 – May 2015)

Role: Front End Developer

Team Size: > 50

Components/Technologies: Sencha Technologies

Project Description:

Citi Private Bank In View is uniquely designed for Citi Private Bank Clients. This digital engagement experience provides a comprehensive view of accounts. It enables clients to explore their portfolios in detail, analyze and compare metrics, discover opportunities, and access publications around our core themes and views, with just a tap, pinch or swipe. This represents the start of a journey to provide a Private Bank that is more open, transparent and collaborative, delivering a more personalized and engaging client experience.

Roles and Responsibilities:

- Front End: Development of architecture of base framework to be used for web & mobile application & all modules, custom UI Widgets development that can be used on both web & mobile version in ExtJS & Sencha Touch. Added multi language support using i18n.js, custom features(sorting & filter, row expander) for Ext JS grid, multi-purpose store generator.
- Build: Building application for web & mobile(for hybrid app) using Sencha CMD & Ant. Created mobile build & integrated in cordova application.
- Support: End to End support from development of module to Production.

3. Anotate – Zeus Learning Private Limited.

(July 2011 – Oct 2013)

Role: JavaScript Developer

Team Size: 10

Components/Technologies: HTML5, Sencha Touch, Script #, Qt, PHP, MySQL

Project Description:

Anotate is an interactive white boarding tool that turns an iPad or Android tablet into a mobile interactive whiteboard. It is cloud based software that works as a web app on Safari on the iPad and Chrome on Android. Anotate uses a small downloadable application on a desktop or laptop to mirror the tablet in real time. By connecting a projector to your desktop or laptop, you get all the functionality of a mobile whiteboard on a tablet. Anotate is an HTML5 web app that runs on both iPads and Android tablets and the Anotate Mirror client works for both Windows and Macs.

Roles and Responsibilities:

- Front End: Developed core drawing part of application. Managed and enhance gesture manager and implemented pinch, swipe and drag gestures in annotate. Enhance remote desktop component and improved performance. Implemented Undo-Redo, slides navigations, slide sorter, shapes resizing using handlers etc.
- Desktop Communications: Managed, enhance and bug fixing in desktop communication in real time with annotate mirror client. Implemented packets to send data of user activities in desktop.
- Build & Upload: Minifying, obfuscations, versioning, app cache management, javascript loader and uploading of annotate javascript files on server.
- Server Side: Wrote ServerManger & Http Communications to implemented services to load & post data to server in javascript.

Areas of Interest:

- Strong interest to acquire new skills and technologies.
- Design & Develop modular, extensible & pluggable architecture.
- Server side languages (ruby or python), Server side MVC Web frameworks to become full stack developer.
- Find and make tools, implement methodologies, learn design patterns to ease development of large project & make it manageable and extendable.
- Keen to learn management skills.
